After a restful night and a hearty breakfast at your **luxury hotel**, your immersive guided city tour kicks off with a visit to **Swayambhunath, famously known as the Monkey Temple**. Perched on a hilltop, this ancient Buddhist stupa offers panoramic views of the Kathmandu Valley and a serene spiritual atmosphere.

Next, we head to **Kathmandu Durbar Square**, a UNESCO World Heritage Site steeped in history. From there, we make our way to the majestic **Boudhanath Stupa**—one of the largest and most significant Buddhist monuments in the world, and a sacred place for Tibetan Buddhists and Sherpas. You'll take a relaxing lunch break at one of the area's best rooftop restaurants, where you'll enjoy panoramic views of the stupa and even

catch a glimpse of the Himalayas to the north.

After lunch, the journey continues to **Pashupatinath Temple**, Nepal's holiest Hindu shrine, dedicated to Lord Shiva. Here, you'll witness centuries-old rituals and cremation ceremonies taking place along the sacred Bagmati River—an experience that's both humbling and unforgettable.

As the tour wraps up, we head back to **Thamel**, Kathmandu's vibrant tourist hub. This is the perfect time to pick up any last-minute trekking gear or souvenirs, and get prepped for the days ahead.

- **Max Altitude:** 1,9400 meters / 6,365 feet
- **Trekking Duration:** 2 to 3 hours

After breakfast, we will pick you up from the hotel and drop you off at the domestic airport for a short but very picturesque flight to Pokhara. We can catch amazing views of the Himalayas from the right side of our airplane. Pokhara is a beautiful lake city and we are rewarded with magnificent views of the Himalayas including Dhaulagiri, Manaslu, Machhapuchhare, the five peaks of Annapurna, and others.

We meet our **Sherpa crew** at Pokhara Airport then you will transfer to Kimche by Private Jeep. Which is about 2:30 hours drive from Pokhara, from where we'll begin the first steps of our trek.

Our trek begins as the trail ascends slightly through forests to Ghandruk, a bustling village of the ethnic Gurung community that has its own dialect, culture, dress, and traditions. Ghandruk is also home to many Gurkha soldiers. It is a well-known destination for trekkers as it is known for its beautiful mountain views and also because it's just a stone's throw from Pokhara and Kathmandu. We then crash out for the night at our lodge – B. L. D

Day 05:: Trek to Dobato (3,425m/11,237 ft)- About 4/5 hrs-Overnight stay at Private Lodge.

- **Max Altitude:** 3,425 meters / 11,237 feet

After having our breakfast at Tadapani, we start our day by walking on the gradual path through the lush rainforest. After hiking for 2-3 hours, we will stop for lunch at a place called Isaru. We'll spend about 1 hour here enjoying a delicious meal, and our Sherpa guide will provide you with the best available lunch.

After this stop, our walk continues with a slow climb for an hour through the rhododendron and pinewood forest. We will reach an open, large pasture with a sturdy wooden shepherd's shelter. From here, our route diverts east with a short climb to a ridge through short rhododendron bushes. A few minutes of descending from the ridge brings us to a small path above the cliffside. This almost level path for 5-10 minutes could be risky when walking

in snow and hailstorms, which may occur sometimes. However, this small section must be undertaken cautiously.

After reaching the other side of the ridge near the boulders, our hike takes us on a downhill slope overlooking terrific views of the surrounding landscapes, including the Annapurna range, the amazing peak of Machhapuchare, and the Dhaulagiri range to the west. From here, a gradual climb of fewer than two hours brings us to our overnight camp at Dobato. Dobato is a cowherd spot with scattered temporary huts in the middle of the rhododendron and magnolia forest, offering excellent close-up views of the Annapurna mountains and even as far as the Manaslu range to the east. We will stay overnight at a private lodge. (B.L.D.)

Day 06:: Trek from Dobato to Chistibung (3,100m / 10,170ft) 4-5 hrs – Overnight at Lodge (B/L/D)

- **Walking Duration:** 4–5 hours

We begin our day early with a short hike to Muldai Viewpoint (3,637m / 11,932ft), just above Dobato—one of the best-kept secrets of the Annapurna region. From here, you'll witness an unforgettable sunrise over a breathtaking panorama of Himalayan giants, including Dhaulagiri, Annapurna I, Annapurna South, Hiunchuli, Machapuchare (Fishtail), Manaslu, and Lamjung Himal. This quiet viewpoint offers one of the widest and most dramatic mountain vistas in Nepal.

After soaking in the sunrise views, we return to the lodge for breakfast before continuing our trek. The trail descends through lush forests and peaceful alpine terrain, eventually reaching Chistibung (3,100m / 10,170ft)—a peaceful grazing area surrounded by rhododendron and pine forests.

You may spot wildlife along the way, such as the colorful Danphe (Himalayan Monal), Nepal's national bird, or even the elusive Himalayan Tahr. Upon arrival, we check in at a cozy community lodge for a warm meal and restful night.

Day 07:: Trek to Khopra Danda (3,660 meters / 12,007 ft): 2-3 hrs – Overnight at Lodge (B/L/D)

- **Max Altitude:** 3,660 meters / 12,007 feet
- **Trekking Duration:** 2 to 3 hours

After breakfast at the community lodge in Chistibung, we begin a steady uphill trek through alpine meadows and dense rhododendron forests toward **Khopra Danda (also known as Khopra Ridge)**. The trail gains elevation quickly, and though the distance isn't long, the climb can feel challenging due to the altitude. Expect the hike to take around 2 to 3 hours, with plenty of opportunities to pause and take in the scenery.

As you ascend above the treeline, the views begin to open up dramatically. Once you reach **Khopra Danda at 4,020 meters (13,189 feet)**, you'll be greeted with one of the most spectacular panoramic views in the entire Annapurna region. You'll also get a dramatic view down into the Kali Gandaki Gorge, the deepest gorge in the world.

Tonight, you'll stay in a rustic but welcoming community-managed lodge, designed to support local development and sustainability.

Day 08:: Trek from Khopra Danda to Swanta (2200 meter/7218 feet) – 5-6 hrs trek

- **Trek Duration:** 5–6 hours
- **Max Altitude:** (2200 meter/7218 feet)

After a warm breakfast at Khopra Ridge, paired with sweeping views of the **Annapurna and Dhaulagiri ranges**, we begin our scenic descent toward the traditional village of Swanta. The trail winds gently downhill through alpine meadows and rhododendron forests, offering uninterrupted views of the majestic Mount Dhaulagiri along

- **Trek Duration:** 5–6 hours
- **Max Altitude:** (2,880 meter/9,350 feet)

After a hearty breakfast in the peaceful village of Swanta, we set off on a scenic trek toward the famous mountain hub of Ghorepani. The day begins with a gentle descent through terraced fields and traditional homes, giving you a final glimpse of village life before entering the forest trail.

We'll cross a charming river via a classic suspension bridge and begin the climb toward Chittre, a picturesque village where we reconnect with the main Annapurna trekking route. From here, it's a steady uphill hike through dense rhododendron forests that are especially colorful in spring. Along the way, expect glimpses of snow-capped peaks and occasional encounters with local wildlife.

As we ascend, the crisp mountain air and lush surroundings keep the trail engaging until we reach Ghorepani, nestled in the heart of the Annapurna region. This vibrant village is known for its welcoming atmosphere, cozy tea houses, and as the launch point for the famous Poon Hill sunrise trek.

You'll settle in for the night at Hotel Snow Land, where you'll enjoy the comfort of a private room with an attached bathroom—a little luxury in the Himalayas.

Our Khopra Ridge trek includes both way scenic flights from Kathmandu-Pokhara and Pokhara-Kathmandu. Pokhara may not seem far from Nepal's capital city Kathmandu (the cities are only 126 miles / 204 km apart), but the Nepali landscape and road quality make for a very long drive. That's why we recommend our clients opt to fly instead of a long drive.

Flying is by far the fastest and most comfortable way of traveling between Kathmandu and Pokhara and is highly suggested if you're short on time and looking for a comfortable journey. There are several flights each day from the domestic terminal of Tribhuvan Airport and take only around 25 minutes. It's a very scenic flight, particularly if you sit on the right-hand side of the plane, so you can see the Himalayas. When flying, you're likely to arrive feeling enthusiastic and with plenty of time for activities the same day, which can't really be said if you make the trip overland.

Naturally Pokhara. The charming city has numerous beautiful lakes and offers stunning panoramic views of the Fishtail Mountain flanked by the Majestic Himalayas. Pokhara is an amazing place for natural beauty at an altitude of 827 meters from sea level and 200 km west of Kathmandu. It is also one of the most popular tourist destinations in the country.

The Dhaulagiri, Annapurna, and Manaslu ranges, each with peaks over 8,000 m, can be seen from Pokhara and there are lakes, caves, and impressive falls (Patale Chango or Devi's Fall) where the water from the Phewa Lake thunders into a hole and disappears. These are some of the Pokhras heritage sites as well

As there are many lakes in this beautiful city, Pokhara is also known as the "City of Lakes". Phewa Lake, Begnas

Lake, and Rupa Lake are the most visited lakes of Pokhara. While at Pokhara, you can visit World Peace Pagoda, Sarangkot, Davi's fall, Mahendra Cave, and museums. These places will surely help you to reveal a lot about Pokhara.

Pokhara to Khimche By Private Transfer

We meet our Sherpa crew at Pokhara Airport then you will transfer to Khimche by Private Jeep. Which are approximately 2:30 hours drive from Pokhara, from where we'll begin the first steps of our trek. From Pokhara, we travel by a private vehicle northwest along the Baglung Rajmarg Road. This scenic drive, which climbs in altitude and is windy in places, transports many trekkers in the Annapurna area to the beginning points of their trek.

Although most of the trekkers began from Nayapul, we highly advise you to drive up to Khimche and start your first-day trek because you won't have pleasure hiking firstly due to dusty roads. We are always committed to offering you quality private vehicle service for any trip in Nepal. The benefit of taking a private vehicle is that you can ask the driver to stop whenever you like and smaller vehicles tend to be able to move through the traffic a little faster than larger buses. Private vehicles come with their own driver.

Tatopani (Hot Spring) to Pokhara by Private Jeep

We end our trek at **Tatopani. Where we will enjoy the natural Hot Spring.** From here you will transfer back to Pokhara by private vehicle. It takes approx. 2-3 hours by private vehicle. We will arrive in Pokhara by late afternoon. **The vehicles being used by mountain Sherpa Trekking during the tour will be clean, comfortable & fully sanitized before use.**

Travel information

Visa on Arrival:

Tourist visas are available upon arrival at Tribhuvan International Airport in Kathmandu. The current fee for a multiple-entry visa valid for 15 days is USD \$30, and for a 30-day multiple-entry visa, it's USD \$50. Please note that all fees are subject to change without notice and must be paid in cash in U.S. dollars. It's advisable to carry two passport-size photos with you.

The 'On Arrival' visa procedure is quick and straightforward, although there might be queues during peak tourist seasons. If you prefer to skip the queues, you can also obtain a visa from Nepalese Diplomatic Missions abroad before your arrival. The choice is yours.

Upon your arrival at the airport, please follow these simple steps for a Tourist Visa on Arrival:

1st Step: Fill in the 'Arrival Card'

Fill out the [Online Tourist Visa form](#) (you can complete it in advance by visiting the official website of the

Department of Immigration or fill it out using the Kiosk machines upon your arrival at the airport). If you fill it out on the website, you will receive a submission receipt with a barcode. Please print it out and bring it with you to acquire a visa. This receipt is valid for fifteen days and becomes invalid afterward, so make sure to keep it safe.

2nd Step: Make Payment at the Bank

Make the required payment at the bank according to your visa requirement (15/30/90 Days) and obtain a receipt. While different modes of payment are accepted at the visa fees collection counter, it's advisable to carry some cash to be on the safe side.

3rd Step: Proceed to the Immigration Desk

Proceed to the Immigration Desk with your online form, payment receipts, and your passport. Hand in these documents to the immigration officer for visa processing. Upon their satisfaction, they will issue a visa to you.

On Arrival Visa Fee:

15 Days – 30 USD

30 Days – 50 USD

90 Days – 125 USD

Cash & Credit Cards:

In Nepal, cash transactions can generally be made in either U.S. dollars or the local currency. It's recommended to have recently issued U.S. dollar bills in smaller denominations. Major credit cards are accepted primarily in larger shops, hotels, and tourist-category restaurants. Access to ATM machines is available in larger cities like Kathmandu and Pokhara but is limited in rural areas.

Altitude Sickness:

Trekking to high altitudes without allowing your body to adjust to the new elevation can lead to altitude sickness, which is characterized by symptoms like headaches and nausea. Returning to a lower elevation typically relieves these symptoms without the need for treatment. However, in severe cases, altitude sickness can be life-threatening.

When hiking at altitudes ranging from 8,000 to 12,000 feet above sea level, our bodies require time to acclimatize to the decreasing oxygen levels. Even if you are physically fit, you can still experience altitude sickness if you ascend too rapidly.

Mountain Sherpa Trekking's Khopra Ridge trek itinerary is thoughtfully designed to minimize the risk of altitude sickness. Over the years, we have refined our itinerary to facilitate the acclimatization process. Our trek itinerary is fully flexible and can be adjusted on the spot if necessary.

It's essential to remember that trekking in the Himalayas is not a race. Even the most physically fit individuals can suffer from altitude sickness if they ascend too quickly. Going slowly allows your body the time it needs to adapt to the altitude. However, during the acclimatization process, you may experience some of the following symptoms:

1. Tiredness
2. Minor headache
3. Troubled sleep
4. Loss of appetite/nausea
5. Shortness of breath
6. Cough
7. Palpitation
8. Swelling of the hands and face

Each person acclimatizes at different rates, so taking your time and staying well-hydrated is crucial. Experiencing these symptoms does not necessarily mean you have Acute Mountain Sickness (AMS). All our Sherpa guides are extensively trained in first aid, and we encourage you to communicate with your guide if you believe you have any symptoms, so we can effectively monitor your condition. The only effective treatment for Acute Mountain Sickness is to descend to a lower altitude.

It's important to keep in mind that this is your holiday, and you shouldn't stress about the possibility of getting sick in the mountains. Take things slowly, drink plenty of water, and savor the breathtaking views of the Himalayas. If you do experience any issues, please notify your guide immediately—note that your guide has the ultimate responsibility and may advise you to descend if symptoms persist.

Travel insurance:

Travel insurance is not just a good idea; it's essential, especially when embarking on activities like high-altitude trekking in remote areas where access to medical facilities can be limited. Having the right insurance coverage offers you peace of mind during your adventure, knowing that you're protected in case of unexpected events. These can range from medical emergencies, trip cancellations, trip interruptions, delays, lost or stolen luggage, to even a helicopter rescue from a mountain.

It's highly advisable to obtain travel insurance before you start your journey. By doing so, you safeguard yourself from potentially significant financial burdens in case of an unforeseen incident. While such occurrences are rare, having insurance ensures that you won't face substantial out-of-pocket expenses.

Additionally, when you book your trek with Mountain Sherpa Trekking, they will provide you with a letter and invoice to submit to your insurance provider, if needed. This can streamline the insurance claim process, making it easier and more efficient should you need to make a claim. Ultimately, having the right travel insurance in

place is a wise and responsible choice for any traveler, particularly for those engaging in adventurous activities in remote locations.

Additional info:

As you pack for Everest Base Camp, remember that your gear will be separated into two packs: your daypack that you will carry each day as you trek, and your duffel bag which will be carried between tea houses by porters. All extra baggage (non- trekking items) can be stored at the hotel before you start your trek. We provide you with a free duffel bag in Kathmandu. You can use it to pack your essential trekking equipment. We provide one-porter services for two people. Porters will carry up to 25 kg - 30 Kg or 55-66 pounds of your personal items. This must include your sleeping bag and down jackets. Therefore your duffel bag should not weigh more than 12 kg-15 kg or 26 pounds to 33 pounds.

INSIDE YOUR DAYPACKS:

Daypacks can be any size for hiking, but we always recommend the smaller, the better. Around the 25l to 30l size is good for the **Khopra Ridge trek**. You need to carry your own backpack (with waterproof cover) where you can carry your daily needed items in your own backpack. For instance: Water bottle, Extra money for drinks, souvenirs & tips, sunhat, camera, important documents, toiletries, sunscreen, hand sanitizer, rain gear, music (iPhone), etc.

If you don't have your own down jacket & sleeping bag, don't worry. We will provide you with 4 season sleeping bags and a good down jacket with a hood for complementary use. Good quality sleeping bag and down jacket are most important for high altitude trek.
