ITINERARY

Day 01:: Private transfer from Kathmandu airport to hotel by our guide

If your journey to Kathmandu graces you with clear skies, consider it the prologue to an extraordinary adventure. As your aircraft descends, be prepared for a breathtaking spectacle of glistening snow-capped peaks sprawling beneath you. These glimpses from above mark the beginning of a vacation that promises a cascade of unforgettable experiences, creating memories to be cherished.

Upon your plane's gentle touchdown at Tribhuvan International Airport, our attentive **Mountain Sherpa Trekking** representative and driver eagerly await your arrival. A seamless transition from the skies to the ground unfolds as they warmly greet you and accompany you to your hotel. Following a smooth check-in process, you'll have the opportunity to refresh yourself in the comfort of your room.

Once settled, a comprehensive briefing awaits, outlining the exciting daily activities that lie ahead. With the logistics sorted, the remainder of the day is yours to explore the surroundings and acquaint yourself with the charm of this ancient city of temples – a city with an unrivaled abundance of historical and cultural wonders.

Your inaugural night in Kathmandu marks the beginning of a journey that promises not just a vacation but a profound exploration of one of the most captivating cities in the world.

Day 02:: Boudhanath, Pashupatinath sightseeing and trek preparation (hotel).

Awakening from a restful night's sleep, fueled by a hearty breakfast, we step into the vibrant rhythm of Kathmandu with anticipation. A private guide and driver stand ready to guide us through the treasures of the city, promising a day of exploration and cultural immersion.

Our first stop unfolds at the majestic **Boudhanath Stupa**, a global icon and the largest of its kind. This spiritual haven stands as a cornerstone of Tibetan culture in Kathmandu, designed as a colossal mandala—a symbolic representation of the Buddhist cosmos. The air is infused with a sense of serenity as we navigate the intricacies of this sacred site.

Next, we venture to the revered **Pashupatinath Temple**, a sanctum dedicated to the Hindu deity Lord Shiva. Regarded as the holiest Hindu shrine in Nepal, the temple's aura resonates with centuries of devotion. Here, we witness the sacred ritual of cremation at 'Aryaghat,' the temple's cremation area. This solemn site serves as the final resting place for the former royal family of Nepal and the local Nepalese community.

Returning to our hotel, we indulge in moments of relaxation and prepare for the upcoming trek. The afternoon unfolds with the buzz of shopping for trekking essentials, a meticulous check of our gear, and the strategic

organization of our backpacks. As the day transitions to evening, we savor an early dinner, preparing ourselves for the exciting journey that awaits us the next day.

In the embrace of Kathmandu's cultural richness, we retire for the night, poised to commence our trek with a wealth of experiences already woven into the tapestry of our adventure.

Day 03:: Drive Kamjin Village & Trek to Sherpagaun (2,550m/8,366ft) - Lodge

Approx. Drive Time : 6-7 Hours **Approx. Distance:** 145 Km

Start Your Langtang Trek at Kamjin for a Scenic Adventure

While most trekkers begin their Langtang journey from **Syabrubesi**, we recommend starting from **Kamjin Village or a little further**. This option offers a more peaceful and picturesque beginning to your trek, leading you to the stunning **Sherpagaun**, a hidden gem far more beautiful and serene than Syabrubesi.

The drive to **Kamjin** is an unforgettable 6–7-hour journey through Nepal's breathtaking countryside. Traveling by private Jeep ensures comfort and safety, and with over **26 years of experience** as a responsible **Sherpa company**, we provide expert drivers who make your journey smooth and enjoyable. Along the way, we pass through Trisuli Bazaar, where we'll take a relaxing lunch break at a local restaurant. The route, tracing the banks of the Trishuli River, rewards you with awe-inspiring views of Ganesh Himal, terraced fields, and rolling green hills.

Beyond Betrawati, there are two possible routes: one via Dhunche, which is longer but more scenic and comfortable, and a shorter, bumpier alternative. Our experienced drivers always choose the Dhunche route to ensure a more pleasant and visually rewarding journey.

Once we reach Kamjin or slightly further, your trekking adventure begins. A short and delightful one-hour walk takes you to Sherpa Gaon, a peaceful village surrounded by nature's splendor. Here, you'll stay in the best available lodge, offering the comforts of hot showers, Western-style toilets, and attached bathrooms.

Sherpa Gaon's tranquil charm and authentic Sherpa hospitality provide the perfect setting to start your Langtang trek. With our deep local expertise, we ensure your journey is safe, comfortable, and filled with unforgettable experiences. Starting your trek from Kamjin is not just a scenic alternative—it's a gateway to a more enriching Himalayan adventure.

Day 04:: Trek from Sherpagaun to Thangshyap (3,240m/10,630ft) :5-6 hours

After a restful night at **Sherpagaun (2,550m)** and a hearty breakfast, we begin our trek around 7:00–7:30 AM. The day's journey starts with a relatively flat trail interspersed with short ascents and descents, leading us to the charming village of Rimche (2,400m) in approximately two hours. After a brief rest, we continue trekking toward Lama Hotel (2,430m), a small settlement nestled amidst dense forest.

From Lama Hotel, the trail ascends gently and crosses the Langtang Khola as we move toward **Riverside (2,800m)**, a serene area with two small lodges. This segment, about 1 hour and 20 minutes, is shaded by the lush forest, making it a pleasant walk. Along this stretch, you'll enjoy spectacular views of **Langtang Lirung (7,234 meters / 23,734 feet)**, adding to the beauty of the journey.

Continuing from Riverside, a steady climb brings us to **Ghodatabela (2,970m)**, where we'll pause for a well-deserved lunch. The trek from Riverside to Ghodatabela takes approximately 1 hour and 45 minutes. Ghodatabela, meaning "Horse Stable," offers stunning surroundings and a peaceful atmosphere for a midday break.

Post-lunch, the trail flattens out with no major ascents, allowing for a more relaxed walk. In about 1 hour and 10 minutes, we reach **Thangshyap (3,200m)**, our destination for the day. Here, we'll stay in the best available lodge, offering modern comforts such as **hot showers, Western-style toilets, and attached bathrooms** to ensure a

comfortable overnight stay.

Day 05:: Trek from Thangshyap to Kyanjin Gompa (3,860 meters / 12,664 feet- 5-6 hours

After a good night's sleep at **Thangshyap (3,140 meters / 10,302 feet)** and a delicious breakfast, we will start our trek around 7:00–7:30 in the morning. Today's trek will be incredibly beautiful, offering some of the best views along the route.

We will pass through several picturesque villages, with the first being **Gompa Danda (3,200 meters / 10,498 feet)**. After that, we will trek through the charming **Langtang Village (3,430 meters / 11,253 feet)**, where we'll take a short break to enjoy a cup of tea or coffee and explore the beauty of the area. Continuing our journey, we will reach the small village of **Mandu (3,555 meters / 11,662 feet)** and then another village called **Sindhum (3,600 meters / 11,811 feet)**, where we will stop for lunch.

After lunch, we will trek for about 1 hour and 30 minutes to reach **Kyanjin Gompa (3,860 meters / 12,664 feet)**. Upon arrival, you'll have the chance to immerse yourself in the local culture, explore the village, and experience its unique charm. A visit to the local cheese factory will provide insight into the region's traditional practices and add an authentic touch to your adventure.

For your comfort, you will stay at the best lodge in Kyanjin Gompa, offering amenities such as hot showers, attached bathrooms, and comfortable beds.

Day 06:: Hike to Tserko Ri (4,984m/16,350ft) or Kyanjin Ri (4,350m/14,271ft)

The **Langtang Valley** in Nepal beckons trekking enthusiasts with two exhilarating hikes—Tserko Ri and Kyanjin Ri—each promising breathtaking views of the Himalayan peaks.

Tserko Ri, standing tall at 4,984 meters (16,350 feet), presents a challenging yet rewarding ascent. The panoramic vista includes the **Langtang Valley** and snow-capped wonders like Langtang Lirung, Dorje Lakpa, and Shishapangma. The 7-8 hour round trip involves a steep climb, demanding proper acclimatization, ideally with a day's stay at Kyanjin Gompa beforehand.

Kyanjin Ri, at 4,350 meters (14,271 feet), offers a shorter, less challenging trek. Taking 4-5 hours round trip, it reveals breathtaking views of Langtang Valley and nearby peaks. Although less steep than Tserko Ri, it necessitates proper acclimatization and reasonable fitness.

Both journeys commence from Kyanjin Gompa, a quaint settlement in Langtang Valley, providing a gateway to the region's natural splendor. The best time for these treks is autumn and spring when skies are clear.

Embarking on Tserko Ri or Kyanjin Ri with our expert **Sherpa guide** ensures a safe, enjoyable trek. Their assessment of your fitness level aids in choosing the perfect hike. With their guidance, acclimatization becomes seamless, and you can relish panoramic mountain views. Don't miss this adventure of a lifetime—join us on a **Langtang trek** with our seasoned Sherpa guides.

Day 07:: Trek from Kyanjin Gompa to Lama Hotel 2,470 meters/8,103 feet

Embarking on the journey from Kyanjin Gompa to Lama Hotel spans approximately 14 kilometers (8.7 miles) and demands around 6-7 hours to complete. The trek initiates from Kyanjin Gompa at an elevation of 3,870 meters (12,697 feet) and concludes at Lama Hotel, situated at an altitude of 2,470 meters (8,103 feet).

Your route retraces the path down the valley, navigating through enchanting forests and traversing suspension bridges over the **Langtang Khola river**. The trail winds through picturesque villages such as Langtang and Mundu, gradually descending towards Lama Hotel.

While the descent is predominantly downhill, easing the journey compared to the ascent to Kyanjin Gumpa, it's crucial to acknowledge the steep sections. The descent, though less physically demanding, can pose challenges for your knees. To ensure a safe trek, maintain a slow pace and exercise caution during the descent.

Day 08: : Trek from Lama Hotel to Thulo Syabru 2,210 meters / 7,251 feet- 4-5 hours

After an early morning breakfast at **Lama Hotel (2,470 meters / 8,103 feet)**, we begin our trek around 7:00 AM. After about a 20-minute walk, we reach Rimche.

From Rimche, the trail descends slightly as we approach the riverside settlement of **Bamboo (1,970 meters / 6,463 feet)**, which takes about 2 hours. Before reaching Bamboo, we cross a suspension bridge over the Langtang Khola (River). Continuing the trek from Bamboo, the path climbs steadily through forests, leading to **Pairo (Landslide) (1,800 meters / 5,906 feet)**, a spot known for its fascinating views of cascading waterfalls.

The next segment involves a steep climb to Upper **Syabru (Thulo Syabru) (2,210 meters / 7,251 feet)**. Although this section can be challenging, the effort is well-rewarded with breathtaking panoramic views of **Ganesh Himal, Langtang Himal**, and, on clear days, glimpses of the Tibetan plateau.

Thulo Syabru is a picturesque Tamang village adorned with traditional houses, fluttering prayer flags, and serene monasteries. Upon arrival, you can explore the village, engage with locals to learn about their culture, or simply relax and soak in the stunning surroundings.

You will stay in a comfortable lodge in Thulo Syabru, offering clean rooms, hot showers, and hearty meals to prepare you for the next day's adventure.

Day 09:: Trek from Thulo Syabru to Dhunche (1,960 meters / 6,430 feet)- 4-5 hours

After an early morning breakfast at **Thulo Syabru (2,210 meters / 7,251 feet)**, we begin our descent around 7:00 AM. The trail starts with a gradual downhill walk, weaving through terraced fields and dense forests of pine, oak, and rhododendron. The fresh mountain air and surrounding greenery make this section of the trek a refreshing experience.

As we descend further, the trail offers occasional glimpses of Ganesh Himal and the lush valley below. After approximately 1.5–2 hours of walking, we reach the small village of **Bramhiny (2,150 meters / 7,054 feet)**. Here, you can take a short break to rest and enjoy the peaceful surroundings.

From Bramhiny, the trail becomes steeper, with a continuous descent through mixed forests and scattered settlements. As we approach **Ghatte Khola (1,650 meters / 5,413 feet)**, the sound of the rushing river provides a serene backdrop. We cross a small bridge over the river before continuing downhill.

The trail then transitions into a gentler gradient, passing through farmland and small villages where you can observe local Tamang communities going about their daily lives. After another 2–3 hours of trekking, we arrive at **Dhunche (1,960 meters / 6,430 feet)**, the administrative center of the Rasuwa District.

Dhunche is a bustling town with various amenities, including shops, restaurants, and guesthouses. Upon arrival, you can relax, explore the town, or visit the Langtang National Park office to learn more about the region's flora and fauna.

You will stay in a comfortable guesthouse in Dhunche, offering clean rooms, hot showers, and a cozy environment to rest after the day's trek.

Drinking Water during Langtang Valley Trek

For many of us, the perfect choice may be to go for the mineral water. After all, it's sealed and safe to drink, plus it provides an income for the local traders – right? Regrettably, things are never quite that simple. Mineral water produces a vast number of knock-on problems for mountain societies.

While it does provide an income to local people it also generates an extraordinary, heart-breaking amount of waste and spoiling. Most places simply do not have the resources to do anything with the empty plastic bottles – and they burn them, releasing toxic gases into the air, or leave them in piles just out of sight of travellers, where they take more than 450 years to decompose.

Take, for example, **Langtang Valley Trek**, The recommended amount of water intake on a high altitude trek like this is 3-4 liters a day. The trek is 7 days long. That's more than approximately 21 liters and 21 plastic bottles, which won't decompose until the year 2466 – per person.

For a full MST group of 12 people, just one trip will result in more than 252-300 mineral water bottles. And the salt in the wound is that plastic doesn't decompose at high altitudes, so those 252 or more bottles will be up there forever. But what can you do? You have to drink, so how can you get around the problem?

The Alternatives: The great news is that there are really various options that will help you out of the bottled water trap. Here are just four of the best. All you have to do is pick which one is right for you.

Striped- Steripen is the most trusted model on the market. This technique uses exactly the same process as most mineral water undergoes before it is bottled. It's UV filtering, exactly the same treatment as the majority of bottled water undergoes to be purified, but on the go. The technology has been around for much longer than you think, but it's only recently been competitively priced enough to be on the market. SteriPen is an American company; other UV filters are also available.

Boiled water– This isn't always an option if you're out and about, but boiled water is an excellent option for safe drinking water on trek. Boiling the water kills any nastiness lurking there. It is the safest and most convenient option. Most lodges serve it, and it is great to ward off the cold. Prices range anywhere between NPR 50 and 120 per liters.

Which means, the cost of drinking water will be around \$30-\$40 for 7 days langtang valley trek. Please note that 3-4 liters of fully boiled drinkable water will be provided daily during whole trek. you can book our all inclusive langtang valley trek package for safe and hassle free service. **There are no hidden cost.**

Purification tablets– Water refining tablets or chemicals like chlorine dioxide are other frequently used. They are easy to carry and cheap to buy. However, they are not as effective as UV filters or boiled water and need a few hours to act. Besides these, LifeStraw and iodine-based treatments are also available but have their drawbacks.

Additional info:

As you pack for langtang Valley Trek, remember that your gear will be separated into two packs: your daypack that you will carry each day as you trek, and your duffel bag which will be carried between tea houses by porters. All extra baggage (non- trekking items) can be store at the hotel before you start your trek. We provide you a free duffel bag in Kathmandu. You can use it to pack your essential trekking equipment. We provide one-porter services for two people. Porters will carry up to 20-25 kg of your personal items. This must include your sleeping bag and down jackets. Therefor your duffel bag should not weigh more than 12 kg/26.5 lbs.

INSIDE YOUR DAYPACKS:

Daypacks can be any size for hiking, but we always recommend the smaller, the better. Around the 25l to 30l

size is good for EBC trek. You need to carry your own backpack (with waterproof cover) where you can carry your daily needed items in your own backpack. For instance: Water bottle, Extra money for drinks, souvenirs & tips, sunhat, camera, important documents, toiletries, sunscreen, hand sanitizer, rain gear, music (iPhone) etc.

Transportation

KATHMANDU - SYABRUBESI (122 KM) = 7-8 HOURS DRIVE

While it's possible to reach Syabrubesi from Kathmandu by public bus, we strongly discourage this option due to challenging road conditions.

For your convenience and peace of mind, we consistently offer a clean and fully sanitized 4WD Jeep for the journey to Syabrubesi, a trip that typically takes about 6 to 7 hours.

The driving distance is approximately 122 kilometers from Kathmandu to Syabrubesi. Opting for a private Jeep with an experienced driver ensures a much safer, more comfortable, and faster journey to your destination.

As a responsible [Sherpa company](#) with over 25+ years of experience organizing Langtang Valley treks, we understand that the quality of service matters for an enjoyable holiday in Nepal. Therefore, we provide a comfortable 4WD Jeep with a driver boasting over 20+ years of experience for both the journey from Kathmandu to Syabrubesi before the start of the trek and the return from Syabrubesi to Kathmandu after the trek concludes.

This approach ensures a comfortable journey, as opposed to a long bus travel, offering flexibility to stop as needed—for bathroom breaks, taking pictures, enjoying a cup of tea, or engaging in conversations with locals based on your interests.

We appreciate your trust in us and look forward to providing you with an exceptional trekking experience in the Langtang Valley.

Travel Insurance

Altitude Sickness:

If you trek to a high altitude without letting your body adjust to the new elevation, you may experience altitude sickness. Symptoms include headache and nausea. If you return to a lower elevation, your symptoms will likely go away without needing treatment. In severe cases, altitude sickness can be life threatening.

When we hike above 8,000 to 12,000 feet above sea level our bodies need to acclimatize to the decreasing

amount of the oxygen available. You may have symptoms if you travel to a high altitude without giving your body time to adjust to less oxygen. Even if you're physically fit, you can still experience altitude sickness.

Mountain Sherpa Annapurna sanctuary trek itinerary is carefully designed to avoid from altitude sickness. Over the years we have come up with the best itinerary to aid in the acclimatization process. Our trek itinerary is fully flexible & can modify on the spot if required.

Remember the trek to Himalaya is not a race. Even those in the best shape will suffer from altitude sickness when they race to the top of the mountain too quickly. Go slowly, it will give your body time to adjust to the mountain. However, during the acclimatization process, you may experience some of the following symptoms.

1. [Tiredness](#)
2. [Minor Headache](#)
3. [Troubled sleep](#)
4. [Loss of appetite/nausea](#)
5. [Shortness of breath](#)
6. [Cough](#)
7. [Palpitation](#)
8. [Swelling of the hands and face](#)

Each Person acclimatizes at different rates. Our best suggestion is to take your time and drink plenty of water. These symptoms may not indicate the onset of A.M.S. and if you experience them it does not necessarily mean that you should not continue. All our Sherpa guides have extensive first aid training and we request you to talk with the Sherpa guide at all times should you believe you have any symptoms in order that we can efficiently monitor your symptoms. The only cure for Acute Mountain Sickness is to descend.

You must remember that this is your holiday and you do not want to stress out about the possibility of getting sick from the mountains. Do everything slowly. Drink lots of water. And enjoy the Himalayas views. If anything does happen and you unfortunately get sick, let your guide know right away –Please note that your guide has ultimate responsibility and may ask you to descend if symptoms persist.

Travel insurance:

Travel insurance is necessary for any trip, but is mainly important when undertaking activities such as high altitude trekking in remote regions where medical facilities or assistance may not be close at hand. You'll enjoy your adventure better with the peace of mind that comes from knowing you have the right insurance cover in place should a mishap occur. This can be anything from medical emergencies, trip cancellation, trip interruption, delays, lost or stolen luggage to a full helicopter rescue off a mountain.

Obtaining travel insurance before you leave home is strongly recommended. This way, if something happens, and this is rare, you will not be out of pocket a tremendous amount of money. Mountain Sherpa trekking will provide a letter and your invoice to submit to your insurance in this case to help expedite your processing.
