In the afternoon we make the return trek to Pheriche a small Sherpa town for overnight sleep. Twin Otter aircraft is the usual mode of transport to and from Lukla. This service is fairly dependable, however in case the flights are canceled due to mountain weather conditions, **Mountain Sherpa Trekking & Expeditions** will charter a helicopter to ensure you are on schedule for your international flight connections. The helicopters can fly if the visibility is 1500m, while the Twin Otter can fly if the visibility is 5000m as per the Civil Aviation Rules. The cost of the helicopter is payable directly to our Kathmandu office in the event that this service is utilized. US cash, traveler's cheque, or credit cards (Visa, MasterCard & American Express only) are accepted. You will be given a receipt upon payment so that you may claim the amount from your travel insurance.

The minimum cost will be US\$350 and the maximum US\$650 depending on the number of group members. The maximum allowance for checked luggage on these flights is 15kg per person and 5kg for hand luggage. These limits are strictly adhered to so please pack carefully. Please note that approx. 5.5kgs of this weight will be taken up by the sleeping bag (2.5kg), down jacket (1.5kg), kit bag (1kg), and sleeping bag liner (0.5kg) that you are provided.

Our **Everest base camp luxury lodge trekking** packages are all-inclusive but we advise that you budget between \$400 and \$500 for additional expenses on your trek including tips. We also suggest you plan on having

extra money available in cash or on a credit card in case you require to book a helicopter in the event your flight is canceled.

Unforeseen cost due to flight cancellation, weather conditions, etc. You are responsible for extra hotel nights and meals in Kathmandu or Lukla that are a result of flight delays.

Travel Insurance

The importance of Insurance:

Travel insurance is necessary for any trip but is mainly important when undertaking activities such as highaltitude trekking in remote regions where medical facilities or assistance may not be close at hand. You'll enjoy your adventure better with the peace of mind that comes from knowing you have the right insurance cover in place should a mishap occur. This can be anything from lost or stolen luggage to a full helicopter rescue of a mountain.

For the Everest base camp luxury lodge trek, you need to confirm that your travel insurance covers Helicopter Rescue with a height limit of no less than 5,5000m. Most standard policies provide cover for walking up to a maximum of 2,500 meters.

The Nepal Trekking Activity Pack add-on extends cover to include trekking between 4,600m and up to 7,000m within Nepal and also includes all activities in the Extreme Activity and Activity packs.

Mountain Sickness:

When we hike above 3500 meters our bodies have to acclimatize to the decreasing amount of oxygen available. To allow our bodies to adjust we have designed our trek's itinerary so that you walk gradually, allowing

acclimatization to occur. However, during the acclimatization process, You may experience some of the following symptoms.

- 1. Tiredness
- 2. Minor Headache
- 3. Troubled sleep
- 4. Loss of appetite/nausea
- 5. Shortness of breath
- 6. Cough
- 7. Palpitation
- 8. Swelling of the hands and face

Each Person acclimatizes at different rates. Our best suggestion is to take your time and drink plenty of water. These symptoms may not indicate the onset of A.M.S. and if you experience them it does not necessarily mean that you should not continue. All our Sherpa guides have extensive first aid training and we urge you to talk with the Sherpa guide at all times should you believe you have any symptoms in order that we can efficiently monitor your symptoms. The only cure for Acute Mountain Sickness is to descend. Please note that your guide has ultimate responsibility and may ask you to descend if symptoms persist.

Additional info:

As you pack for Everest Base Camp, remember that your gear will be separated into two packs: your daypack that you will carry each day as you trek, and your duffle bag which will be carried between tea houses by porters. All extra baggage (non- trekking items) can be stored at the hotel before you start your trek. We provide you with a free duffel bag in Kathmandu. You can use it to pack your essential trekking equipment. We provide one-porter services for two people. Porters will carry up to 20-25 kg of your personal items. This must include your sleeping bag and down jackets. Therefore your duffel bag should not weigh more than 12 kg/26.5 lbs.

INSIDE YOUR DAYPACKS:

Daypacks can be any size for hiking, but we always recommend the smaller, the better. Around the 251 to 301 size is good for the EBC trek. You need to carry your own backpack (with a waterproof cover) where you can carry your daily needed items in your own backpack. For instance: Water bottle, Extra money for drinks, souvenirs & tips, sunhat, camera, important documents, toiletries, sunscreen, hand sanitizer, rain gear, music (iPhone), etc.

If you don't have your own down jacket & sleeping bag, don't worry. We will provide you with 4-season sleeping bags and a good down jacket with a hood for complementary use. Good quality sleeping bag and down jacket are most important for high altitude trek.
