Day 02:: Fly to Pokhara and drive to Kande and Trek to Deurali (2100m/6,720ft): Approx. 5-6 hrs.

- **Approx. Total Duration:** 5-6 hours (30 min flight + 1 hr drive + 3-4 hrs trek)
- Trek Difficulty: Easy to Moderate

After a hearty breakfast in Kathmandu, we head to the domestic airport for a spectacular 25-minute flight to Pokhara, offering breathtaking views of the Langtang, Manaslu, and Annapurna ranges—your first glimpse of the Himalayan giants. At Pokhara Airport, our welcoming Sherpa crew meets you and escorts you on a scenic one-hour private drive to Kande, the starting point of our trek.

We begin our hike toward Deurali (2,100m), reaching the serene Australian Camp after about two hours. This peaceful hilltop offers stunning panoramic views of Annapurna South, Machhapuchhre (Fishtail), Annapurna II & IV, and Lamjung Himal. We stop here for a well-earned lunch surrounded by natural beauty.

Continuing downhill to Pothana (1,950m), we check in at the ACAP and TIMS checkpoint, then ascend gently to Deurali to end the day. Forested trails, mountain vistas, and authentic village charm make this a perfect introduction to your Himalayan journey.

Note: Starting the trek from Kande is a peaceful and scenic alternative to the busier routes—perfect for easing into the Mardi Himal trek. The trail begins with a gradual ascent to **Australian Camp (2,060m)** in about an hour, followed by an easy walk to Pothana (1,950m) and a gentle climb to Deurali (2,100m). Few trekkers choose this route, making it a quiet and beautiful start to your Himalayan adventure.

Day 03:: Trek from Deurali to Forest Camp (2,520m/8064ft). Approx. 4-5 hours.

- Starting Altitude (Deurali): 2,100 meters / 6,888 feet
- Ending Altitude (Forest Camp): 2,520 meters / 8,064 feet
- Approx. Trekking Time: 4–5 hours
- **Trek Difficulty:** Moderate (Gradual uphill and forested path)

After breakfast in **Deurali** (2,100m), the trek heads east, leaving the main Annapurna trails behind as you enter a quieter, more secluded section of the Mardi Himal route. The trail turns right from the ridge and dives into a dense rhododendron and oak forest, offering a serene, shaded walk with occasional bird calls and filtered mountain views.

As you ascend gradually, the peaceful atmosphere and untouched beauty of the jungle trail make this section a favorite for nature lovers. About halfway through, the trail dips briefly before climbing again toward your destination. Expect a mix of gentle inclines and steeper sections, especially as you near Forest Camp (also known locally as Kokar).

Located at **2,520 meters** (**8,064 feet**), Forest Camp is a small clearing in the woods with several cozy teahouses where you can enjoy mountain hospitality and rest for the night. While you don't yet have wide Himalayan views, the surrounding forest and peaceful environment create a magical and calming trekking experience.

Day 04:: Trek from Forest Camp to Badal Danda (3,360 m/11,020 ft.) 3-4 hours

- Starting Altitude: 2,520 meters (8,264 feet) Forest Camp
- Ending Altitude: 3,360 meters (11,020 feet) Badal Danda
- Trekking Time: 4 to 5 hours
- **Difficulty:** Moderate (Uphill through forest, transitioning to alpine ridge)

After a peaceful night in the woods at **Forest Camp**, today's trek takes you deeper into the Mardi Himal trail and higher in elevation. The day begins with a fairly steep ascent through dense rhododendron and oak forests, rich in birdlife and shaded serenity.

Roughly an hour into the hike, you'll reach Rest Camp, a small teahouse stop ideal for a short break and a chance to hydrate. From here, the trail gradually opens up as you climb above the tree line, and the first glimpses of snow-capped peaks begin to appear.

The name **Badal Danda**, meaning "Cloud Hill," truly lives up to its reputation. As you reach this scenic ridge at **3,360 meters (11,020 feet)**, the forest gives way to wide-open grassy slopes with breathtaking panoramic views of **Machhapuchhre (Fishtail)**, **Annapurna South**, and **Hiunchuli**. On a clear day, the clouds roll beneath the ridge, creating a dramatic "above the clouds" effect.

You'll arrive in time for lunch, and the afternoon is free to relax, acclimatize, and take in the stunning surroundings. **Badal Danda** is a perfect spot for sunset views over the Himalayas.

Day 05:: Trek from badal dada to high Camp (3,540m/11,328ft): 3-4 hours

- Starting Altitude: 3,360 meters (11,020 feet) Badal Danda
- Ending Altitude: 3,540 meters (11,328 feet) High Camp
- Trekking Time: 3 to 4 hours
- **Difficulty:** Moderate (Steep climb with alpine vegetation and panoramic views)

After an early breakfast at **Badal Danda**, you'll begin today's ascent towards **High Camp**, situated at **3,540 meters** (**11,328 feet**). The trail starts off relatively steep as you leave the grassy ridgeline and move into higher altitudes where the vegetation becomes more sparse. The once-dense rhododendron forests give way to alpine scrub, with the iconic **rhododendron bushes** and occasional wild shrubs adding a splash of color against the backdrop of snow-capped peaks.

The higher you climb, the more expansive the views become. You'll be treated to wide panoramas of **Machhapuchhre** (**Fishtail**), Annapurna South, and Hiunchuli, which appear even closer as you gain altitude. At times, you might spot wildlife like **Himalayan tahr** or the Daphne pheasant, Nepal's national bird, along the way.

Around the 2-hour mark, you'll reach a small teahouse at Rest Camp, a welcome spot for a brief rest and a hot drink before continuing the final stretch towards **High Camp**. The trail gradually flattens out as you near High Camp, and the landscape transitions into a barren, windswept ridge, with magnificent views of the surrounding mountains in all directions.

Upon arrival at High Camp, you'll find yourself surrounded by awe-inspiring views of the **Annapurna and Machhapuchhre ranges**, with Mardi Himal looming above. This is a perfect spot for acclimatization, and the high altitude ensures a peaceful and relatively quiet atmosphere. Take your time to explore the area and soak in the stunning scenery before resting for the night.

Day 06:: Hike to the Viewpoint or hike up to Mardi Base Camp and return to Low Camp.

View Point Height: 4,200 meters / 13,780 feet
Base Camp Height: 4,500 meters (14,764 feet)

Today presents two exciting options for your adventure:

The first option is to push on to Mardi Himal Base Camp (4,500m) from High Camp, a challenging and rewarding full-day trek of approximately 7-8 hours, with a round-trip return. This will be an unforgettable journey, offering panoramic vistas of the towering peaks, but it's a demanding day.

Alternatively, we can choose a more relaxed pace by hiking up to the Viewpoint (approximately halfway), enjoying spectacular views, and then returning to High Camp for a slightly easier, yet still awe-inspiring experience.

After a hearty breakfast, we begin our day as the first light of dawn bathes the towering peaks of Annapurna South, Himalchuli, and Machhapuchhre (Fishtail) in golden hues. The ascent over the next 2-3 hours is steep, but the views keep you captivated as you look down over the trail to Annapurna Base Camp and out to the high, snow-capped giants of the Himalayas.

Reaching the top, you are treated to a 360-degree panorama that feels like stepping into the heart of the Himalayas. Annapurna South (7,219m), Himalchuli, Glacier Dome (7,069m), Gangapurna (7,454m), Machhapuchhre, and the jagged summit of Mardi Himal (5,587m) stand proud against the sky. This breathtaking vista is an experience that will stay with you long after the trek.

This day offers not just spectacular views, but a deep connection with the mountains, their grandeur, and their rugged beauty. Whether you choose the full trek to base camp or a shorter trek to the viewpoint, it will surely be one of the highlights of your journey.

Day 07:: Trek from Low camp to Landruk(1500m/ 4920ft), 5-6 hrs- Lodge(B/L/D)

• Starting Elevation: Low Camp – 3,050m (10,006 ft)

• **Ending Elevation:** Landruk – 1,565m (5,135 ft)

• **Approx. Trekking Time:** 5 to 6 hours

• **Difficulty:** Moderate (mostly downhill with some uneven and forested sections)

After enjoying breakfast at **Low Camp**, we begin our descent toward Landruk, a scenic Gurung village nestled on the side of the Modi Khola valley. The trail drops steadily, winding through beautiful **rhododendron and oak forests**, offering occasional glimpses of **Machhapuchhre** (**Fishtail**) and **Annapurna South** as the landscape opens up.

We first retrace our steps through Forest Camp, then continue descending through quiet woodland paths. This part

of the trail is rich in biodiversity and birdsong, making for a peaceful and refreshing walk.

Eventually, the forest thins as we approach the lower hills. We pass through small settlements and terraced fields before arriving in **Landruk**, located at 1,565 meters. The village offers stunning views of the Annapurna Range, especially **Hiunchuli** and **Machhapuchhre**, and is known for its traditional Gurung culture and hospitality.

This section of the trek is less physically demanding compared to the higher elevations, but the consistent descent can be tough on the knees—trekking poles are helpful here.

Day 08:: Trek from Landruk to Ghandruk (6,365 feet / 1,940 m): 3-4 hours

- **Starting Elevation:** Landruk 1,565m (5,135 ft)
- Ending Elevation: Ghandruk 1,940m (6,365 ft)
- **Approx. Trekking Time:** 3 to 4 hours
- **Difficulty:** Moderate (short but includes a steep uphill section)

After a relaxed morning in the beautiful village of Landruk, we begin our trek toward **Ghandruk**, another iconic Gurung settlement in the Annapurna region. The trail initially descends steeply through terraced fields and stone steps to the Modi Khola (river), which flows from the Annapurna Base Camp.

After crossing the bridge over the Modi Khola, the trail begins a steady and sometimes steep uphill climb through forests and stone-paved switchbacks. This part can be a bit challenging but is well-maintained and shaded.

As we gain elevation, we begin to see stunning views of Annapurna South, Hiunchuli, and **Machhapuchhre** (**Fishtail**). After **3 to 4 hours** of hiking, we reach Ghandruk, one of the largest and most culturally rich Gurung villages in the region.

Ghandruk offers magnificent mountain vistas, traditional houses, a Gurung museum, and a warm, welcoming atmosphere. It's a perfect place to explore local culture and enjoy a peaceful overnight stay with panoramic views.

Day 09:: Trek to Khimche & drive back to Pokhara by jeep(2 hrs & 1hours drive)- Hotel

Start your day with a delicious breakfast in **Ghandruk**, surrounded by the tranquil mountain views. Afterward, embark on a short, relaxing one-hour trek through charming villages and terraced rice fields, making your way toward **Khimche.** The trek provides a final opportunity to take in the natural beauty and local life of the Annapurna region.

Upon reaching Khimche, a private jeep will be waiting to take you on a scenic drive back to **Pokhara**, approximately a 2-hour journey. Along the way, enjoy the picturesque landscapes as you leave the mountains behind and head toward the serene lakeside city.

Upon arriving in **Pokhara**, you'll check into your comfortable hotel and have some time to freshen up. After lunch, we'll take you on a relaxing tour of Pokhara, visiting iconic spots such as **Devi's Fall** and the **International Mountain Museum**. You'll also enjoy a peaceful hour-long boat ride on **Phewa Lake**, with stunning mountain reflections and a serene atmosphere that's perfect for unwinding.

In the evening, explore the lively **Lakeside** area at your own pace. Whether you're in the mood for Nepali delicacies or international cuisine, there's no shortage of great dining options. Wrap up your day with a delightful meal, reflecting on the unforgettable experiences of your trek and your time in Nepal.

Day 10:: Drive to airport & Fly back to Kathmandu and Full day city Tour in Kathmandu.

After a satisfying buffet breakfast at your **luxury hotel**, you'll be transferred to Pokhara's domestic airport, just a quick 20-minute drive from your accommodation. From there, enjoy a scenic 25-minute flight back to Kathmandu, offering stunning aerial views of the mighty Himalayas and the verdant valleys below.

Upon your arrival in Kathmandu, you'll embark on a full-day guided tour of the city's most iconic and culturally significant sites. Your first stop is the sacred **Pashupatinath Temple**, one of the holiest Hindu temples in the world. Located along the Bagmati River, this **UNESCO World Heritage Site** is a hub of religious activity, where you can witness ancient rituals and the spiritual vibrancy that surrounds it.

Next, we'll visit **Boudhanath Stupa**, one of the largest and most revered Buddhist stupas in Nepal. This peaceful monument is central to Tibetan Buddhist practices and is surrounded by monasteries, offering a serene atmosphere for reflection. You'll also have the chance to enjoy lunch at a rooftop restaurant, where you can marvel at panoramic views of the stupa and surrounding areas.

After lunch, the tour continues to **Swayambhunath,** also known as the Monkey Temple. Perched on a hill, this ancient Buddhist site provides sweeping views of the Kathmandu Valley and is renowned for its tranquil environment and playful monkeys.

Lastly, explore **Kathmandu Durbar Square**, a historical heart of the city, home to grand temples, royal palaces, and vibrant markets. Wander through this UNESCO World Heritage Site and discover the deep cultural and historical significance it holds, once being the center of Nepalese kingship.

After your tour, return to **Thamel**, the lively tourist district. Take some time to wander the colorful streets, shop for unique souvenirs, or enjoy a delicious dinner at one of the many renowned restaurants. Drinking-Water during Mardi Himal Trek

For many of us, the perfect choice may be to go for mineral water. After all, it's sealed and safe to drink, plus it provides an income for the local traders – right? Regrettably, things are never quite that simple. Mineral water produces a vast number of knock-on problems for mountain societies.

While it does provide an income to local people it also generates an extraordinary, heart-breaking amount of waste and spoiling. Most places simply do not have the resources to do anything with the empty plastic bottles – and they burn them, releasing toxic gases into the air, or leave them in piles just out of sight of travelers, where they take more than 450 years to decompose.

Take, for example, Mardi Himal Trek. The recommended amount of water intake on a high-altitude trek like this is 3-4 litters a day. The trek is 7 days long. That's more than approximately 21 litter and 21 plastic bottles, which won't decompose until the year 2466 – per person.

For a full MST group of 12 people, just one trip will result in more than 252 mineral water bottles. And the salt in the wound is that plastic doesn't decompose at high altitudes, so those 360 or more bottles will be up there forever. But what can you do? You have to drink, so how can you get around the problem?

The Alternatives: The great news is that there are really various options that will help you out of the bottled water trap. Here are just four of the best. All you have to do is pick which one is right for you.

Striped- Steripen is the most trusted model on the market. This technique uses exactly the same process as most mineral water undergoes before it is bottled. It's UV filtering, exactly the same treatment as the majority of bottled water undergoes to be purified, but on the go. The technology has been around for much longer than you think, but it's only recently been competitively priced enough to be on the market. SteriPen is an American company; other UV filters are also available.

Boiled water– This isn't always an option if you're out and about, but boiled water is an excellent option for safe drinking water on trek. Boiling the water kills any nastiness lurking there. It is the safest and most convenient option. Most lodges serve it, and it is great to ward off the cold. Prices range anywhere between NPR 50 and 120 per liter. This means the cost of drinking water will be around \$25-\$30 for 7 days ABC trek. Please

note that 3-4 liters of fully boiled drinkable water are provided daily. Book our all-inclusive <u>Mardi Himal trek</u> <u>package</u> for safe and hassle-free service. There is no hidden cost.

Purification tablets— Water refining tablets or chemicals like chlorine dioxide are frequently used. They are easy to carry and cheap to buy. However, they are not as effective as UV filters or boiled water and need a few hours to act. Besides these, LifeStraw and iodine-based treatments are also available but have their drawbacks. Read more about Water Safety in Nepal and Diarrhoea here.

Transportation

Airport Pickup by Private Vehicle:

We always provide timely airport pickup service, which is most important for hassle-free travel. Your guide & driver will meet you at the arrivals hall after you pick up your luggage and head to the exit. (Provide us with your correct international flight details). Please meet our Guide and driver who will be waiting outside the Kathmandu international airport terminal. Our Guide will be holding a welcome banner with your name and our company name Mountain Sherpa Trekking & Expedition at the Kathmandu international airport. They will take you to your hotel in a vehicle arranged by us. By booking your trip with us, you get a safe and comfortable ride without stress and inconvenience.

Kathmandu-Pokhara-Kathmandu Flight:

Our Mardi Himal trek includes both way scenic flights from Kathmandu-Pokhara and Pokhara-Kathmandu. Pokhara may not seem far from Nepal's capital city Kathmandu (the cities are only 126 miles / 204 km apart), but the Nepali landscape and road quality make for a very long drive. That's why we recommend our clients opt to fly instead of a long drive.

Flying is by far the fastest and most comfortable way of traveling between Kathmandu and Pokhara and is highly suggested if you're short on time and looking for a comfortable journey. There are several flights scheduled each day from the domestic terminal of Tribhuvan Airport and take only around 25 minutes. It's a very scenic flight, particularly if you sit on the right-hand side of the plane, so you can see the Himalayas. When flying, you're likely to arrive feeling enthusiastic and with plenty of time for activities the same day, which can't really be said if you make the trip overland.

Naturally Pokhara. The charming city has numerous beautiful lakes and offers stunning panoramic views of the Fishtail Mountain flanked by the Majestic Himalayas. Pokhara is an amazing place for natural beauty at an altitude of 827 meters from sea level and 200 km west of Kathmandu. It is also one of the most popular tourist destinations in the country.

The Dhaulagiri, Annapurna, and Manaslu ranges, each with peaks over 8,000 m, can be seen from Pokhara and there are lakes, caves, and impressive falls (Patale Chhango or Devi's Fall) where the water from the Phewa Lake thunders into a hole and disappears. These are some of the Pokhara's heritage sites as well

As there are many lakes in this beautiful city, Pokhara is also known as the "City of Lakes". Phewa Lake, Begnas Lake, and Rupa Lake are the most visited lakes of Pokhara. While at Pokhara, you can visit World Peace Pagoda, Sarangkot, Davi's fall, Mahendra Cave, and museums. These places will surely help you to reveal a lot about Pokhara.

Pokhara to Kande By Private Transfer

We meet our Sherpa crew at Pokhara Airport then you will transfer to Kande by Private Car. Which is approximately a 45-minute drive from Pokhara, from where we'll begin the first steps of our trek. From Pokhara, we travel by a private vehicle northwest along the Baglung Rajmarg Road.

Although most of the trekkers began from Phedi, we highly advise you to drive up to Kade and start your first-day trek because the trekking route from Kande- Australian Camp to Deurali offers a spectacular view of Annapurna Range including Annapurna South, Machhapuchhre (Fishtail), Annapurna II and IV and Lamjung Himal.

Kimche to Pokhara by Private Jeep

We end our trek in the lower Modi Khola at Kimche. From here you will transfer back to Pokhara by private vehicle. It takes approx. 1-2 hours by private vehicle. We will arrive in Pokhara by late afternoon. The vehicles being used by mountain Sherpa Trekking during the tour will be fully sanitized before use.

Packing List

Packing List Mardi Himal Trek

The following checklist should help you with your packing. As a general rule, you should always try to keep the weight of your equipment to a minimum. Additional info:

As you pack for Mardi Himal Trek remember that your gear will be separated into two packs: your daypack that you will carry each day as you trek, and your duffle bag which will be carried between tea houses by porters. All extra baggage (non- trekking items) can be stored at the hotel before you start your trek. We provide you with a free duffel bag in Kathmandu. You can use it to pack your essential trekking equipment. We provide one-porter services for two people. Porters will carry up to 25 kg - 30 Kg or 55-66 pounds of your personal items. This must include your sleeping bag and down jackets. Therefore your duffel bag should not weigh more than 12 kg-15 kg or 26 pounds to 33 pounds.

INSIDE YOUR DAYPACKS:

Daypacks can be any size for hiking, but we always recommend the smaller, the better. Around the 251 to 301 size is good for the Mardi trek. You need to carry your own backpack (with waterproof cover) where you can carry your daily needed items in your own backpack. For instance: Water bottle, Extra money for drinks, souvenirs & tips, sunhat, camera, important documents, toiletries, sunscreen, hand sanitizer, rain gear, music (iPhone), etc.

If you don't have your own down jacket & sleeping bag, don't worry. We will provide you with 4 season sleeping bags and a good down jacket with a hood for complementary use. Good quality sleeping bag and down jacket are most important for high altitude trek.
